

Connecting to a Virtual Desktop on VMWare Horizon Client with an iPad

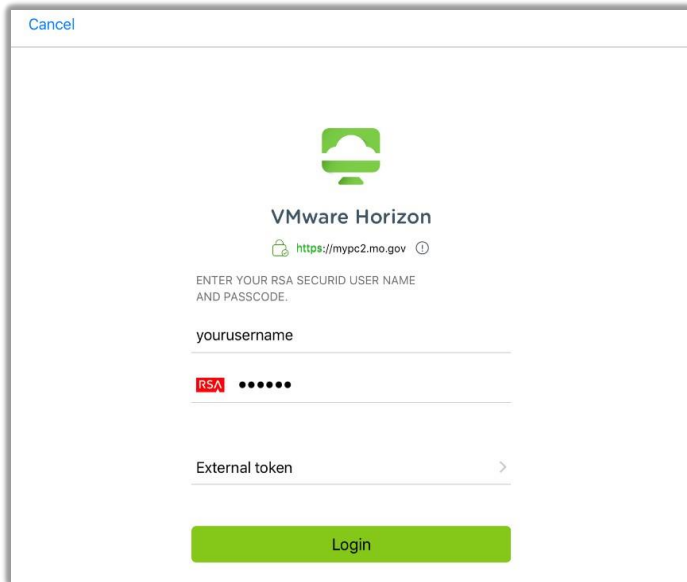

1. On your *mobile device* go to **AirWatch Catalog** if it is a **State** owned device or the **App Store** if it is a **personal** device

2. *Search for VMware Horizon Client* and click **Install**.
3. Tap the icon to **launch the VMware Horizon Client**. You may have to enter a server address. **Enter the server name (mypc2.mo.gov)** as shown below and tap **Connect**

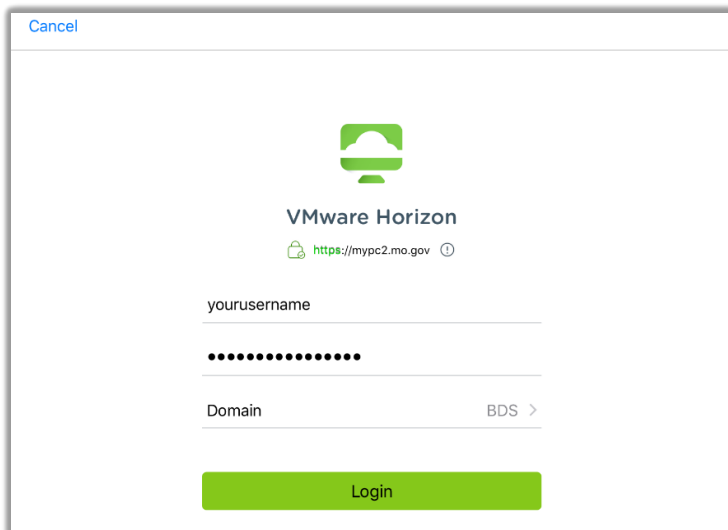

4. If you're connecting outside of the State of Missouri network you'll be prompted for your **network username and RSA Passcode**. Enter those and click **Login**. (If you're connecting internally proceed to step 5)

A screenshot of the VMware Horizon login interface. At the top left is a "Cancel" link. The VMware Horizon logo is centered, with the URL "https://mypc2.mo.gov" below it. The text "ENTER YOUR RSA SECURID USER NAME AND PASSCODE." is displayed. There are three input fields: "yourusername", "RSA" (with a passcode field containing six dots), and "External token" with a right-pointing chevron. A green "Login" button is at the bottom.

- Please refer to your RSA SecurID app installed on your device. The numbers change every 60 seconds. The numbers in your RSA SecurID app will be entered in the passcode field above. **

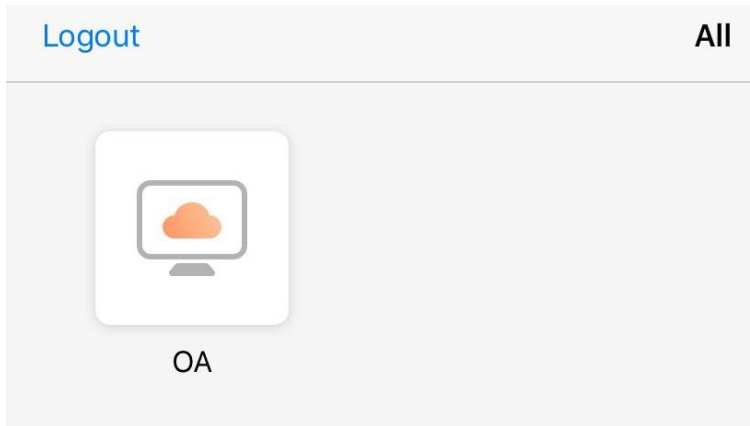

5. You will then **enter your network password** and you'll want to make sure the **correct domain is selected** and tap **Login**. (Note: this is the same username, password and domain that you use when you are in the office)

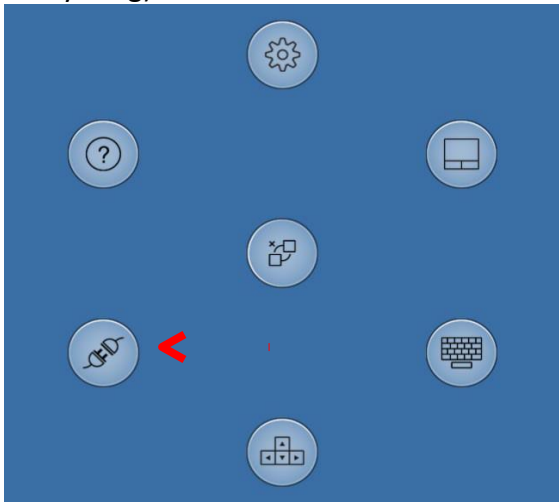

A screenshot of the VMware Horizon login interface. At the top left is a "Cancel" link. The VMware Horizon logo is centered, with the URL "https://mypc2.mo.gov" below it. There are three input fields: "yourusername", a password field (with ten dots), and "Domain" with "BDS" selected and a right-pointing chevron. A green "Login" button is at the bottom.

6. You will then receive a window similar to the one below. *To connect,* you must **double-click the monitor icon**.

7. *When you are done* using the virtual desktop, you can **tap the Horizon Client Tools icon** (the middle icon shown below). From there you can select **Disconnect** (noted by the arrow) or if you want to leave the existing programs running on the VDI or you can go to the **Start button** in Windows and choose **Restart** (if you are done with everything).

If you have any questions or need additional assistance please contact the VDI Helpdesk at 573-751-1900.
