

Installation of RSA SecurID Token Mac Application

Note: Administrator rights are required to install this application on State issued machines. To use this application on your personal device, ITSD will need to install this software on your State issued device prior to use in order to function properly.

Step 1: Open Safari and navigate to <https://community.rsa.com/docs/DOC-40601#token>

Step 2: Find the **RSA SecurID Software Token for Mac OS X** and click on **Downloads**

RSA SecurID Token Authenticators	
RSA SecurID Hardware Tokens	Documentation & Downloads
RSA SecurID Software Token for Android	Documentation & Downloads
RSA SecurID Software Token for BlackBerry 10	Documentation & Downloads
RSA SecurID Software Token for BlackBerry	Documentation & Downloads
RSA SecurID Software Token for iOS	Documentation & Downloads
RSA SecurID Software Token for Windows Phone	Documentation & Downloads
RSA SecurID Software Token for Windows Mobile	Documentation
RSA SecurID Software Token for macOS	Documentation & Downloads
RSA SecurID Software Token for Microsoft Windows	

Step 3: In the *Recent Release* section click on **RSA SecurID Software Token 4.1.2 Downloads for Mac OS X**

RSA LINK

Home My Cases Products ▾ Support RSA Ready RSA University ▾

All Places > Products > RSA SecurID Access
RSA SecurID Software Token for macOS

RSA SecurID[®] Software Token for macOS

Search

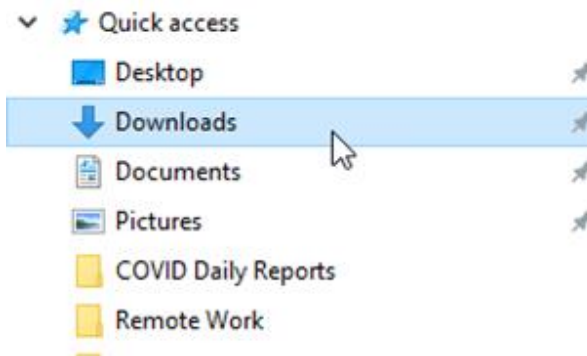

Step 4: In the *Release Download* section click on ***RSA SecurID Software Token 4.1.2 Downloads for Mac OS X.***

The screenshot shows the RSA LINK website interface. At the top, there is a navigation bar with 'Home', 'My Cases', 'Products', 'Support', 'RSA Ready', and 'RSA University'. On the right, there are links for 'About RSA Link', 'Partner Portal', and the RSA logo, along with a 'Log in' button and a search icon. Below the navigation bar is a breadcrumb trail: 'All Places > Products > RSA SecurID Access > RSA SecurID Software Token for macOS > Documents'. The main content area features a document titled 'RSA SecurID Software Token 4.2.1 for macOS Downloads'. It includes a 'Release Download' section with a blue bar and a red arrow pointing to the download link. Below the link, the SHA256 hash is displayed: 'e3d796f263cbdbc4a6c870931e469c64e8c8ffb14aa8ae68b4036cee0eeb0c04'. There is also a 'Release Notes' link.

Step 5: The file will begin to download to the *Downloads folder*

Step 6: Browse to your *Downloads folder* and double-click on the file named ***RSASecurIDMac412.***

Step 7: Another window will open. **Double-click on the file named *RSASecureIDTokenAutoMac412x64.***

Step 8: **Install** using the default options and click **Close**.

Step 9: **Open the SecurID program** from Applications. An ***Import Token*** window will open. Click on ***Import from Web.***

Step 10: You should receive two emails from an administrator for the RSA SecurID Token. One e-mail will contain a *URL* and the other e-mail will have the *Activation Code*. **Copy the URL from the URL e-mail and paste it in the Enter URL: field** in the *Import Token* window. Then **copy the Activation Code from the activation code e-mail and past it in the Enter Activation Code field**.

Step 11: Click on **OK**. You should get an *RSA SecurID Token* window open that says you have successfully imported the token. Click on **OK** to close this window.

Step 12: You will now receive a window with a **six-digit RSA SecurID Tokencode**. This six-digit code changes every 60 seconds. *When this window is no longer needed please close it by clicking on the "red dot" in the top left corner.*

The next time you need an RSA token code, you will just need to open *SecurID* from *Applications*.

If you have any questions or need additional assistance, please contact the VDI Helpdesk at 573-751-1900.
