

## Installation of RSA SecurID Token Desktop Application

**Note:** Administrator rights are required to install this application on State issued machines. To use this application on your personal device, ITSD will need to install this software on your State Issued device prior to use in order to function properly.

**Step 1:** Open **Internet Explorer** and navigate to <https://community.rsa.com/docs/DOC-40601#token>

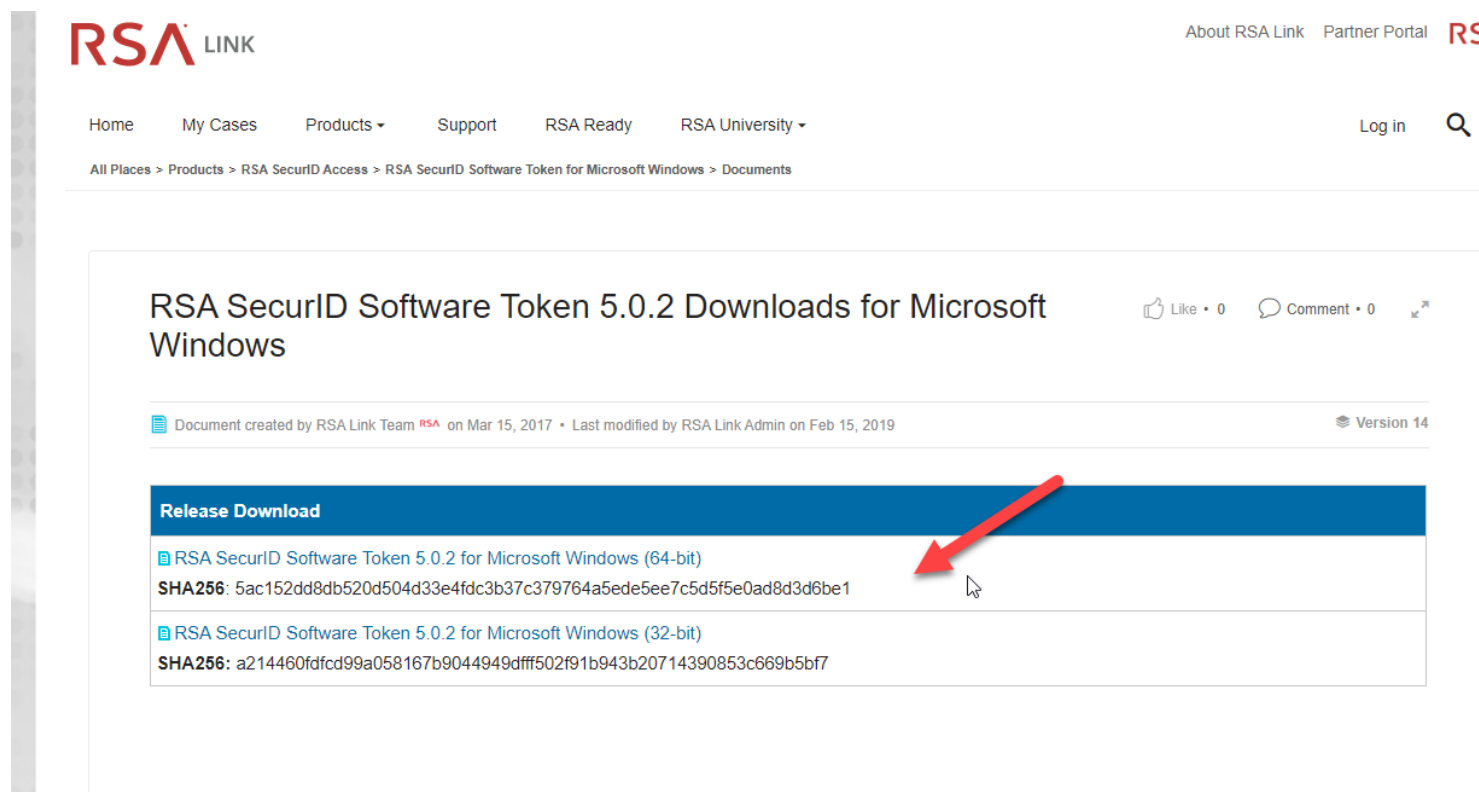

**Step 2:** Find the **RSA SecurID Software Token for Microsoft Windows** and click on **Downloads**

RSA SecurID Token Authenticators	
RSA SecurID Hardware Tokens	<a href="#">Documentation &amp; Downloads</a>
RSA SecurID Software Token for Android	<a href="#">Documentation &amp; Downloads</a>
RSA SecurID Software Token for BlackBerry 10	<a href="#">Documentation &amp; Downloads</a>
RSA SecurID Software Token for BlackBerry	<a href="#">Documentation &amp; Downloads</a>
RSA SecurID Software Token for iOS	<a href="#">Documentation &amp; Downloads</a>
RSA SecurID Software Token for Windows Phone	<a href="#">Documentation &amp; Downloads</a>
RSA SecurID Software Token for Windows Mobile	<a href="#">Documentation</a>
RSA SecurID Software Token for macOS	<a href="#">Documentation &amp; Downloads</a>
RSA SecurID Software Token for Microsoft Windows	<a href="#">Documentation &amp; Downloads</a>
RSA SecurID Mobile Software Development Kit (SDK)	

**Step 3:** In the *Recent Release* section click on **RSA SecurID Software Token 5.0.2 Downloads for Microsoft Windows**

The screenshot shows the RSA SecurID Software Token for Windows download page. The page header includes the RSA LINK logo and navigation links: Home, My Cases, Products, Support, RSA Ready, and RSA University. The breadcrumb trail is: All Places > Products > RSA SecurID Access > RSA SecurID Software Token for Microsoft Windows. The main heading is "RSA SecurID® Software Token for Windows". Below the heading is a search bar and a "Search" button. A red arrow points to the "Download the Token" button. Other buttons include "Technical Specifications" and "Videos". The "Features:" section is partially visible at the bottom.

**Step 4:** In the *Release Download* section click on **RSA SecurID Software Token 5.0.2 for Microsoft Windows (64-bit)** if your Windows operating system is 64-bit or **RSA SecurID Software Token 5.0.2 for Microsoft Windows (32-bit)** if your Windows operating system is 32-bit.

The screenshot shows the RSA Link website interface. At the top left is the RSA LINK logo. On the right, there are links for 'About RSA Link', 'Partner Portal', and 'RS'. Below the logo is a navigation menu with 'Home', 'My Cases', 'Products', 'Support', 'RSA Ready', and 'RSA University'. A search bar and 'Log in' button are on the far right. A breadcrumb trail reads: 'All Places > Products > RSA SecurID Access > RSA SecurID Software Token for Microsoft Windows > Documents'. The main content area is titled 'RSA SecurID Software Token 5.0.2 Downloads for Microsoft Windows' and includes 'Like • 0' and 'Comment • 0' options. Below the title, it states 'Document created by RSA Link Team RSA on Mar 15, 2017 • Last modified by RSA Link Admin on Feb 15, 2019' and 'Version 14'. A blue header bar labeled 'Release Download' contains two entries: 'RSA SecurID Software Token 5.0.2 for Microsoft Windows (64-bit)' with SHA256 hash '5ac152dd8db520d504d33e4fdc3b37c379764a5ede5ee7c5d5f5e0ad8d3d6be1' and 'RSA SecurID Software Token 5.0.2 for Microsoft Windows (32-bit)' with SHA256 hash 'a214460fdcd99a058167b9044949dfff502f91b943b20714390853c669b5bf7'. A red arrow points to the 64-bit entry.

**Step 5:** You will be prompted to save the file. Please **save this file to your desktop** and **open the file when the download is complete**.

**Step 6:** **Double-click** on the file named **RSASecurIDToken502x64** if your Windows operating system is 64-bit or **RSASecurIDToken502x86** if your Windows operating system is 32-bit.

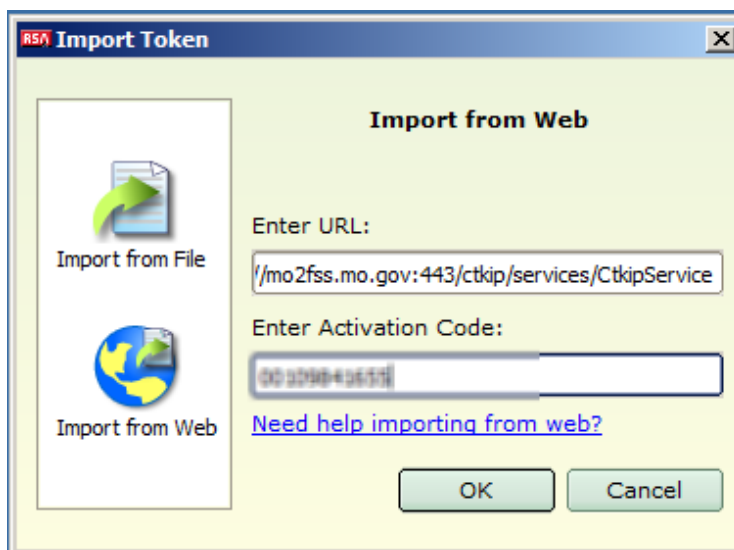

**Step 7:** If you receive a security warning click **Run**.

**Step 8:** **Install** using the default options and click **Finish**.

**Step 9:** **Open the RSA SecurID Token program** from the start menu. An **Import Token** window will open. Click on **Import from Web**.

**Step 10:** You should receive a separate email from an administrator for the RSA SecurID Token. The e-mail will contain a *URL* and the *Activation Code*. **Copy the *URL* from the e-mail and paste it in the *Enter URL:* field in the *Import Token* window.** Then **copy the *Activation Code* from e-mail and past it in the *Enter Activation Code* field.**

**Step 11:** Click on **OK**. You should get an RSA SecurID Token window open that says you have successfully imported the token. Click on **OK** to close this window.

**Step 12:** You will now receive a window with a **six-digit RSA SecurID Tokencode**. This six-digit code changes every 60 seconds. *When this window is no longer needed please close it by clicking on the "X" in the top right corner.*

The next time you need an RSA token code, you will just need to open *RSA SecurID Token* from the start menu.

If you have any questions or need additional assistance, please contact the **VDI Helpdesk at 573-751-1900**.
